

Donut/Circle Braids

Follow Basic Braids step 1 to 10 then

Pull the bottom and top of the Braid Loop outward

Continue stretching the loop out until you have formed a circle-Donut Braid. Bend it as desired to be close to the horse's neck

Cut off extra wire and push the twisted end into the base of the braid so tips of the wire point away from the neck

* If you want to reuse the Twisteezwire allow 1 inch of extra wire beyond the twist. Wrap the loose ends around the underside of the braid (out of site).
